

## This Week

The median list price in BROOMFIELD, CO this week is \$478,750.

The Market Action Index has been trending down lately, while inventory is climbing. These trends imply a weakening market.

## Supply and Demand

- Market conditions have been consistently cooling in the past several weeks. Because we're still in the Seller's zone, prices have not yet begun to drop. It may take a few more weeks of slack demand for prices to reflect and begin to fall. Expect prices to fall if the index persistently falls to the Buyer's zone.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
